## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-16, 37, drawn to an offshore structure, classified in class 405, subclass 195.1.

Group II, claim(s) 17-25, 29-36, 38, drawn to method of installing an offshore structure, classified in class 405, subclass 196.

Group III, claim(s) 26-28, drawn to method of locating an offshore deck, classified in class 405, subclass 203.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Group I does not require the method step of "jacking up the deck" as required in Group II. Group I can be assembled without requiring the "jacking" step as called for in Group II, for

Art Unit: 3673

example, the offshore structure as called for in Group I can be assembled onshore without the jacking step.

Group I does not require the method step of “pulling the outer leg chord towards the deck and pushing the leg chord located adjacent the deck away therefrom” as required by Group III. Group I can be assembled without requiring the “pulling/pushing” step as called for in Group III, for example, the offshore structure as called for in Group I can be assembled onshore.

Group III does not require the method step of “jacking up the deck” as required in Group II. Group III can be assembled without requiring the “jacking” step as called for in Group II, for example, the offshore structure as called for in Group II can be assembled by ballasting means.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
